Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-36 and 55-57, drawn to a method, a machine-readable medium, and apparatus for managing configuration data for a router, classified in class 709, subclass 223.
 - II. Claims 37-54, drawn to method, machine-readable medium, and apparatus for updating configuration data on a network device, classified in class 709, subclass 248.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the invention I is directed to a method, a machine-readable medium, and apparatus for managing configuration data for a router, the invention II is directed to method, machine-readable medium, and apparatus for updating configuration data on a network device. Therefore, the inventions I and II have different modes of operation and they have different effects.
3. These inventions are distinct for the reasons given above and the search required for each group is different and not co-extensive for examination purpose, for

example, the searches for the two inventions would not be co-extensive because these groups would require different searches on PTO's classification as following:

Group I search (claims 1-36 and 55-57) would require use of search **Class 709, Subclass 223** (not require for the invention II).

Group II search (claims 37-54) would require use of search **Class 709, Subclass 248** (not require for the invention I).

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6 A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.EP 710.02, 710.02(b)).
